**Attachments:** YUA ERP Completed First Draft 4-29.doc; Copy of Current Beverly Hills Sampling Plan.xlsx

Hello Bessie,

It was nice to meet you yesterday. I was able to follow up with Ivan Sidney today and we confirmed a date to meet; May 27<sup>th</sup>. We will be developing the SSP's at that time. Jesse Dakota is working on getting us some useable maps. In June we'll be putting together the CCR for First Mesa and will be looking forward to the monitoring data that you are able to send. Lastly, Ivan has authorized me to move forward with getting a quote for the lab monitoring.

Attachments for your review

- ERP using a composite template - I will work to make it a true template with fill in sections.
- SSP example as completed for San Carlos

Take care,

- Greg
